Subject: Reject Walmart Banking Request
Date: Monday, April 10, 2006 6:14:27 PM
Attachments:

Dear FDIC Administrators

Please... do not grant the request by Walmart to go into the banking business. They have left a wake of destruction in every community they have visited their businesses on. Closing local retailers and providers and then underpaying the fewer rehired workers that were originally displaced.

Banking is just another way of taking away our ability to govern locally. Its just too much power to be abused.

Walmart is already the largest corporation in the world. They are beyond a local government's ability to cope.

Thanks for listening.
